

Curriculum Vitae: Sarah Ann Scheffler

CONTACT INFORMATION

Email: sscheffl@andrew.cmu.edu

Website: <https://sarahscheffler.net>

POSITIONS HELD

Carnegie Mellon University (CMU)

Assistant Professor

Engineering and Public Policy Department (CMU College of Engineering, 50% joint appointment)

Software and Societal Systems Department (CMU School of Computer Science, 50% joint appointment)

CyLab (CMU Security and Privacy Institute, core faculty)

August 2024 - Present

Massachusetts Institute of Technology

Postdoctoral Associate

Internet Policy Research Initiative

September 2023 - August 2024

Princeton University

Postdoctoral Research Associate

Center for Information Technology Policy

September 2021 - August 2023

EDUCATION

Boston University

Ph.D. in Computer Science

Advisor: Prof. Mayank Varia

Thesis: Decrypting Legal Dilemmas

Computer Science Research Excellence Award

September 2016 - June 2021

Harvey Mudd College

B.S. joint in Computer Science and Mathematics

Departmental Honors in Computer Science

Graduated with Distinction

Concentration (“minor”) in Political Science

September 2011 - May 2015

PUBLICATIONS

HONORS, AWARDS, AND FELLOWSHIPS

Google Ph.D. Fellowship (supported my Ph.D. research 2019-2021)
Clare Boothe Luce Graduate Fellowship (supported my Ph.D. research 2017-2019)
Boston University Computer Science Research Excellence Award (2021)
RSA Conference Security Scholar (2020)
ACM CSLaw Student Paper Competition: 2nd Place (2019)
Clinic Team Award, HMC Computer Science Department (2015, awarded for an exceptional capstone project)
International Mathematical Competition in Modeling: Meritorious Winner (2014), Honorable Mention (2015)

PROGRAM AND ETHICS COMMITTEES

Research Ethics Committee:

USENIX Security (2025)

Program Committee:

USENIX Security (2025, 2023)
ACM Computer Science and Law (2025, 2024)
IEEE Euro Security & Privacy 2024
New England Security Day 2024
Generative AI + Law 2023
ACM Conference on Fairness, Accountability, and Transparency (ACM FAccT) 2023
Workshop on Foundations of Computer Security 2023, 2021

Shadow Program Committee:

IEEE S&P 2020

External Reviewer:

IEEE Security & Privacy Magazine 2024
Eurocrypt 2024
USENIX Security 2022
IEEE Security & Privacy 2021
ISCA Symposium on Security and Privacy in Speech Communication 2021
Theory of Cryptography Conference 2020
Eurocrypt 2020
IEEE Security & Privacy 2020
ACM Conference on Fairness, Accountability, and Transparency 2020
IEEE Computer Security Foundations Symposium 2018

International Conference on Cryptology and Network Security 2017
International Conference on Information Theoretic Security 2016

WORKSHOPS ORGANIZED

ACM CS/Law Workshop for Junior Scholars (2025, 2024)
Privacy Enhancing Technology for the Public Interest (2023, 2022)

ARTICLES AND BLOG POSTS

Communications of the ACM:

Age Verification Systems Will Be a Personal Identifiable Information Nightmare (Jun 2024, <https://cacm.acm.org/opinion/age-verification-systems-will-be-a-personal-identifiable-information-nightmare/>)

Cyber Alliance Blog:

(Fewer Than) Five Reasons the Tech Sector Isn't All That Different (Feb 2018)
Google Has Its Fingers In Many Pies, But Isn't Monopolizing Any Individual Pie (July 2018)
Computers are Poor Decision-Makers for Ill-Defined Problems (Aug 2018)
The Skeletons in My Closet Are Styrofoam But It's Really None Of Your Business (Sep 2018)

The Conversation:

Artificial intelligence must know when to ask for human help (Mar 2019)

Interviews and posts about my work:

(Written about my work on the Cyber Alliance Blog) Could math change the law? What the 5th Amendment means in cryptography (Mar 2021)
(Interview with me on the Cyber Alliance Blog) Security vs Privacy – Why should you have to choose on messaging apps? (Mar 2021)

INVITED TALKS (last updated in 2023)

Cornell Security Seminar (April, 2023)
EPFL SPRING Lab Seminar (November, 2022)
Stanford Security Lunch (November, 2022)
Microsoft Research Cryptography and Privacy Colloquium (November, 2022)
ACM CS/Law (November, 2022)
Rutgers Seminar for the REU Summer Program at DIMACS for Mathematics and Computer Science (June, 2022)
DIMACS Workshop on the Co-Development of Computer Science and Law (May, 2022)
CS+Law Research Presentations through Northwestern University (May, 2022)
USENIX Security (Aug. 2021)
Privacy Law Scholars Conference (June 2021)
Cryptic Commons Workshop (May 2021)
Georgetown Data Co-Ops Meeting (Mar. 2021)
Duke Privacy and Security Seminar (Mar. 2021)
Stanford Security Seminar (Feb. 2021)
Berkeley Cryptography Seminar (Jan. 2021)
Winter Security Seminar Series at Carnegie Mellon University (Jan. 2021)
Real World Crypto (Jan. 2021)
MIT Security Seminar (Dec. 2020)
Guest lecturer at ETH Zurich course “Approaches to Authentication and Security: Views from Law, Economics, and the Scientific Disciplines” (Nov. 2020)
Northeastern Privacy Scholars Workshop (Nov. 2020)
DIMACS Workshop on the Co-Development of Computer Science and Law (Nov. 2020)
Boston University Security Seminar (Oct. 2020)
Cybersecurity Law and Policy Scholars Conference (planned Apr. 2020, two papers accepted for discussion, event

postponed to Dec. 2020 due to COVID-19)
Bridging Privacy seminar at Berkman Klein Center for Internet and Society (Dec. 2019)
Cornell Crypto Seminar (Nov. 2019)
Carnegie Mellon University AI Seminar (Oct. 2019)
Boston University CyberAlliance Seminar (Dec. 2018)

COURSES TAUGHT

Privacy by Design Workshop & Practicum (17-606 and 17-607; Fall 2024), Current Topics in Privacy Seminar (17-702/19-602/95-862; Fall 2024)

HIGH SCHOOL OUTREACH

RACECAR Crash Course: From Oct. 2018 - Jan. 2019, volunteered as a teaching assistant for this program to prepare high school students for the Beaver Works Summer Institute RACECAR course in the summer.

Code Creative: From Jan. 2017 - Jan. 2018, was a mentor for Code Creative, a computer science education program for Boston-area high school students who do not have access to a computer science course at their schools. Was responsible for creating slides and labs, lecturing, organizing, and in-class tutoring. <https://www.codecreative-ll.org/>

Codebreakers: In summer 2016, as one of a team of three, created and taught a summer cybersecurity class for high school girls. Was responsible for creating the curriculum, creating class material and exercises, and leading classes. In 2017, 2018, and 2019, was a guest lecturer. <https://www.bu.edu/lernet/cyber/>

WORK EXPERIENCE

Assistant Staff MIT Lincoln Laboratory Sep. 2015 - June 2016

Worked in the Secure and Resilient Systems and Technology group within the Cybersecurity and Information Sciences division. Assisted in the implementation and testing of a library that adds confidentiality and integrity guarantees to the Accumulo database, protecting it against a malicious server or sysadmin.

Implementing Oblivious RAM MIT Lincoln Laboratory Summer 2015

Designed and implemented an Oblivious RAM for the Accumulo database in Java, to hide a querying client's access patterns from a malicious server as part of a larger project within the Secure and Resilient Systems and Technology group.

Quantifying Latent Fingerprint Quality The MITRE Corporation and HMC Fall 2014 - Spring 2015

Worked on a team of four students to design, implement, and test a system that uses image processing and machine learning techniques to evaluate the suitability of crime scene fingerprint images for identification by Automated Fingerprint Identification Systems.

Statistical Testing of Cryptographic Entropy Sources NIST Summer 2014

Worked with Dr. Allen Roginsky in the Computer Security Division of the National Institute of Standards and Technology (NIST) to improve NIST's statistical tests for entropy sources in cryptographic random number generators. Also made adjustments to the process for generating large primes for cryptography.

COMPUTER SKILLS

Programming: Rust, Python, C++, C, Haskell, Java, Prolog

Software and Frameworks: MP-SPDZ, NTL, SCALE-MAMBA (SPDZ-2), Mathematica, Sage, R, Matlab, L^AT_EX
